

Part No. TVCS-6000-5 NSN: 4920-01-533-3112

The Flightline Cart (FLC) was specifically designed to protect TTU-205 and FLMTS against damage on the flightline. Many TTU-205 units are damaged through mishandling, in most cases due to the test sets weight and handling procedures. The cart provides ease of maneuverability of the TTU-205 from the tool crib or shop to the aircraft under test. When not in use, the cart can be stowed away with the folding handle. The FLC features:

- Folding T-Handle allows maintainer to easily hand tow the unit
- Hinged folding tow bar folds over test set for storage
- Low pressure, rubber pneumatic tires and rubber padding absorb shock
- Quick apply & release manual hand brake locks the cart for use on the flightline or storage
- Single acting, quick-release pins secure the tow arms for quick adjustment
